

CROSSLAKE FIBRE SUBMARINE CABLE PROJECT NOTICE OF WORK IN LAKE ONTARIO

Expected Commencement Date: **August 15, 2018**

Expected End Date: **September 1, 2018**

The **cable ship IT Intrepid/8PSH**, supported by the tug **Tim Mckeil**, will be conducting cable installation operations in Lake Ontario, between Woodbine Beach Park in the City of Toronto, position N43 39.86, W079 18.35, and Wilson New York, position N43 19.68', W078 46.13. See cable route map.

During the operation the IT Intrepid will be restricted in its ability to maneuver and requests that all vessels give the operation a wide berth of at least 1.0 Nm.

Any concerned traffic should contact the IT Intrepid and Tim Mckeil on VHF Channel 16.

The IT Intrepid is also supported by small power boats with divers when operating 2000m near shore. When near shore, do not cross between the IT Intrepid and the shoreline where the cable is being installed.

Any further information required, please contact the master of the IT Intrepid at master.itintrepid@amosconnect.com
